Lucas SF576 auxiliary lamps commonly use in the XK-140, XK-150 Special Equipment models.

One lamp has a fog lens and the other a spot - both are in almost perfect condition. No sand pitting in either of the lenses and the chrome is near perfect.

These are NOT repros or recent “remakes”, but rather original lamps that don’t even look like they have ever been installed.

Original Jaguar tool rolls for the XK-120, XK-140, XK-150 and E Type Series 1. All tools are of the correct manufacturers and sizes according to the Jaguar parts books - the ONLY authoritative source. Absolutely no repros ever! A selection of early saloon car tools is also available.
