Nebulon

As well as being the owner of Emma, my '69 E Type Coupe, I thought I would share what I do as a sculptor. I create wheel thrown ceramic sculpture incorporating metallic glazes. This piece named "Nebulon", stands about 30 inches tall and reflects my interest in vintage auto and aero engines. Notice the radial pistons, velocity stacks, and stubby exhausts! My intention is to not copy any specific engine but rather, to reflect the bits of those wonderfully crafted vintage machines that we all so love. And yes, they are for sale...

Early XK 120 alloy/steel C4075 feeler gauge

This is a hard to find tool - a double pivot feeler gauge with the correct .006 and .008 blades. This feeler gauge is in concours condition and an absolute necessity for the authentic very early XK 120 tool roll.

E Type S2 original tool roll and tools

This S2 roll is an original item, very nice, and all of the tools are in excellent condition. The correct double bit screwdriver does not look like it has ever been used, and the tyre gauge is the correct winged style for the S2.

E Type S3 original tool roll

This is a complete roll with the correct Heyco AF open ended spanners and the correct winged tyre gauge for the S3. The vinyl roll is in excellent condition along with the strap.

XK 120 turn signal flasher C 5230

The correct turn signal flasher unit for the XK 120 is a "Tung Sol 241/D". Another difficult to find item, this is brand new in the box.

"MK IV" and MK V Champion Spark Plugs L10

This is a set of N.O.S. Champion plugs for the 3 1/2 "MKIV" and the MK V 3 1/2 cars. These are ORIGINALS in the boxes, and they have the old style black body instead of the current silver color. One set only!
