There can never be too many Jaguars on display!

## 2018 JCNA AGM - San Antonio

Jack Humphrey was re-elected for a second term as President of the Jaguar Clubs of North America at the 2018 Annual General Meeting held on March 24th at the Menger Hotel in San Antonio, Texas.

Mike Mueller conducted a seminar on the differences in Jaguar 6 cylinder heads. Some of these differences are VERY subtle. The display was most impressive and generated a lot of interest.

## WHAT'S IN YOUR GARAGE?

**The JCSC is introducing a new series of events in 2018 -**

### **What's In Your Garage?**

Do you have a garage project that you have spent years completing? Do you have a hidden collection of old Jaguars that you just really want to show someone? Maybe you love hosting BBQs and want a lot of Jaguars parked in front of your garage! Whatever is in your garage, (or on your mind) here is an opportunity to show it off and combine that with a dinner, bbq, trip to a nearby favorite restaurant or just the tour.

An accurate attendance count for these events is vitally important. PLEASE mark your calendar and RSVP ([www.JagClub.org](http://www.JagClub.org)) as soon as possible if you want to participate. Cutoff dates for RSVP s are shown for each event.

We're starting this new event series with a tour of **Jim's ReinCARnation Auto** operation on June 21, 2018. Jim will host a BBQ - just bring your own beverages - and see what's new in Jim's HUGE garage!! That's always VERY interesting. Exact start time will be emailed as we get closer to this event. RSVP by June 14, please.

Next will be **Rory and Emily's garage** (or maybe just their back yard). They will host a Pot Luck BBQ (the Club will provide the meat) at their home in the Perry Park area on Saturday, July 21, 2018. Again, exact start times and directions etc. will be forthcoming. Please RSVP no later than July 14th ([www.JagClub.org](http://www.JagClub.org)).

## PRESS RELEASE

### STAINLESS STEEL BRAKE HOSES FOR VARIOUS MODELS

SNG Barratt supplies an extensive range of Stainless Steel Brake Hoses which improve braking performance and provide superior resistance to corrosion. Our improved design allows higher temperature operation and longer life. Rubber hoses expand under pressure when the brake pedal is compressed, however with stainless hoses this expansion is virtually non-existent so you get a firmer pedal. Every hose is pressure tested at 4200 psi, and exceeds DOT standards. Burst pressure is 12,550-13,500 psi to meet high speed and high temperature requirement and they have high and low temperature resistance -70°C to +260°C
